## 44996 screenings done, 5486 spectacles prescribed

### Introduction

**44996 screenings done, 5486 spectacles prescribed by Ratna Nidhi in 2022-23 for underprivileged students in Mumbai.** With the onset of mobile phones, computers, and now education also slowly shifting to online mode, the stress on the eyes is much larger than before. Students tend to watch videos, study online sometime in the dark, increasing stress on eyes. About 15-20% of students in schools need vision correction.

Vision correction especially for students is critical as it has a direct impact on studying and understanding academic concepts. Good vision is directly related to learning. Most of what children learn in school is through visual presentation and when they cannot see a book or blackboard clearly, they struggle to reach their academic potential. Regular eye check- up, and vision correction is one of the most basic, and critical requirement to study.

### Project Need

A survey carried out by JJ Hospital and the state’s Health Department, which covered 7.5 lakh students across public and private schools from south Mumbai to Sion, found 91,000 kids suffer from myopia. The parents of many of them were not aware of this issue. The survey carried out under the Union Government sponsored Sarva Shiksha Abhiyaan found out that 71000 students with eye defects were exposed to mobile phones.

This situation has increased drastically after the COVID pandemic when the increase in eye issues has been drastic. There is an alarming increase in the number of cases of myopia reported in kids below 12 years of age. On an average, 23-30 per cent kids in India are affected with Myopia, especially kids residing in urban areas as they are seen spending less time outside under sunlight. High exposure to TV, mobile, computer screens and other digital devices, affects children’s eyesight majorly.

### Project Achievement

- 1) Forty Four Thousand Nine Hundred and Ninety Six (44996) screenings done, Five Thousand Four Hundred and Eighty Six (5486) spectacles prescribed

No. of camps	123
No. of schools	96
No. of students screened	44996
Total no. of specs prescribed	5486

- 2) More than Forty Four Thousand Nine Hundred students are now assured that their vision is corrected and can now focus on academics.
- 3) High quality spectacles made with EssilorLuxottica lenses have been provided free of cost.
- 4) Providing spectacles to school children who require vision correction can lead to a positive behavioural change. When children are able to see clearly, they are more likely to participate in classroom activities, engage

with peers, and take on new challenges. This can boost their confidence and self-esteem, leading to an overall more positive attitude towards learning and life.

- 5) Incorporating the message that providing spectacles to children early in their lives can allow them to study and become educated like all other kids is a **powerful trigger for behavior change. It sends the message that vision correction is an essential component of education and that all children should have access to it.** By emphasizing the importance of clear vision for academic success and social development, we can motivate parents, teachers, and students to prioritize regular eye exams and vision correction.
- 6) Moreover, providing spectacles to children in need is a **powerful way to promote equity and social justice.** It ensures that children from all backgrounds have access to the same opportunities for education and success, regardless of their vision status. By creating a sense of collective responsibility towards providing vision correction to children, we can promote a culture of empathy and inclusion, leading to long-lasting changes in attitudes and behaviors towards eye health and education.
- 7) Overall, by emphasizing the importance of vision correction for academic and social development and promoting a culture of equity and inclusion, we can trigger positive behavioral changes in parents, teachers, and students towards regular eye exams and vision correction. **This can lead to improved academic performance, increased self-esteem and confidence, and a more positive outlook on life.**
- 8) Providing high-quality custom-manufactured EssilorLuxottica spectacles to school children in need can have a significant positive impact both academically and emotionally. **By correcting vision impairments, children are better equipped to engage in the classroom and perform to their full potential, which can lead to increased confidence, motivation, and overall success.**
- 9) From an academic perspective, clear vision is essential for students to succeed in school. When children have trouble seeing the blackboard or reading textbooks, they may become frustrated and disengaged, which can negatively impact their academic performance. **By providing spectacles, children can experience a significant improvement in their ability to read and comprehend text, participate in classroom activities, and complete assignments.** This can lead to improved grades, increased academic confidence, and a greater interest in learning.

- 10) Moreover, **improving vision can also lead to improved social skills** and interactions with peers, teachers, and family members. When children can see clearly, they may feel more confident engaging in activities such as sports, arts, and other extracurricular. This can improve their overall well-being and sense of fulfilment.
- 11) In addition to the potential academic and emotional benefits, donating spectacles to children in need is a powerful emotional act. It sends a message of hope and care, communicating that society is invested in their success and future. **The simple act of providing spectacles can inspire a sense of belonging and empowerment in children, which can positively impact their sense of self-worth, self-esteem, and overall happiness.**
- 12) Overall, providing custom-made EssilorLuxottica spectacles to school children can have a far-reaching and meaningful impact. By enhancing their academic performance and emotional well-being, we can create a more inclusive and equitable society where all children have the opportunity to succeed. The **screening of 45,000 children in Mumbai schools and donation of spectacles to 5,485 of them is a significant accomplishment that has likely** helped many children to see clearly and access education more effectively, which could have a long-lasting impact on their lives.

## Increase in prescription of cylindrical lenses

We have also found that the students in need of cylindrical lenses has increased.

## Execution Process

### (i) Coordination with Schools

A phone call was made to each school to confirm if the eye check-up camp was needed. Post this, a visit to each school was done to confirm the date. A formal letter was given to each school by Ratna Nidhi personnel.

During the visit, Ratna Nidhi staff held a formal meeting with the Principal. This included finalisation of date, checking the room for vision check-up, checking the light in the room and discussing deliverables during the camp- like- having volunteer teachers to manage the students, proper plug points in the room, student list to be submitted prior to the camp, POC on the day of the camp. All these were important elements for the success of the camp.

### (ii) Finalisation of camp date

After this, a confirmation from the School Principal was sought & the camp date in each school was finalised.

### (iii) Eye Check-up camp organised

The camp was held in the respective school. A team of 2 professional & experienced optometrists conducted eye check-up camp in each school along with RNCT staff. Ratna Nidhi has bought the eye check-up machines to ensure seamless vision screening.

## Machines used by Ratna Nidhi Charitable Trust

Figure 1 Baliwala & Homi Trial Set

#### (iv) Spectacle manufacturing

Once the visit was done, the list from the school was received, and the manufacturing of the spectacles was started. Each spectacle is customised as per the vision no. of the student. Upon packing, each spectacle is labelled with name of the school name, name of student, standard, vision no. and gender. All the spectacles were manufactured in Ratna Nidhi.

#### (v) Sending the spectacles

The spectacles were then sent to schools through couriers or we fast agency.

## Stories of Hope

**Mohammed Yasin Anis** is a 14-year-old boy who lives in a small room in Mumbai with his family. His father works as a cleaner and earns around 10,000 rupees per month, while his mother is a housewife. The family rents their home and pays 3,000 rupees in rent each month.

Yasin has one younger sibling who also attends the same school as him. Despite the family's financial struggles, Yasin has big dreams of becoming a pilot. However, he has been facing difficulties in school due to his poor eyesight. Yasin had never gotten his eyes tested before, but he was aware that he was having trouble seeing the board and reading his textbooks. His family could not afford to buy him a new pair of glasses, so he struggled to keep up with his studies.

Fortunately, the Ratnanidhi Trusts Vision for All project came to Yasin's school and conducted eye check-ups with high-quality auto refractometers and optometrists. They discovered that Yasin needed glasses to correct his vision. Thanks to the project, Yasin was able to get a pair of world-class EssilorLuxottica spectacles that fit him perfectly.

Now that he has his new glasses, Yasin is able to read his textbooks and see the board clearly. He no longer struggles to keep up in class and is able to focus on his studies. His parents are overjoyed to see their son finally able to read and study better. Yasin is excited to work hard and achieve his dream of becoming a pilot, now that he has the tools to succeed.

The Ratnanidhi Trust's Vision for All project has made a huge impact on Yasin's life, giving him the gift of clear vision and a brighter future.

**Tasbeen Shaikh** is an 11-year-old girl studying in the 5th grade at Anjuman Riyzul Islam High School in Gautam Nagar, Govandi slums. She comes from a humble family with her father being a driver and her mother a housewife. The family lives in a rented house for which they pay a monthly rent of Rs. 4000. Tasbeen has an elder sister who is studying in the 7th grade in the same school. Despite the family's financial constraints, Tasbeen aspires to become a teacher someday.

Tasbeen has never had her eyes tested before and never had a pair of spectacles. Her father's income barely meets the household expenses, which include two meals a day for the family. However, Tasbeen's eagerness to learn was affected by her poor eyesight, which was a major setback for her studies.

Thanks to the Ratnanidhi Trust with Vision for All project, Tasbeen's vision numbers were checked with high-quality auto refractometers and optometrists. The trust provided her with world-class EssilorLuxottica spectacles, which have made a significant difference in her studies. Now, Tasbeen is able to read and study better, which is a great relief for her and her family.

Tasbeen's parents are delighted that their daughter can now see clearly and study without any difficulty. They are grateful to the Ratnanidhi Trust with Vision for All project for providing their daughter with good quality spectacles. Tasbeen is thrilled that she can now see well and is excited to continue her studies without any obstacles.

**Swara Kumar Toraskar** is a 12-year-old girl studying in 7th standard at Swami Shamanand Vidyamandir in Ghatkopar's Bhattwadi area. She is the only child of her parents, and her mother works as a housekeeper and earns Rs. 9,500 per month. Her father is unable to work due to health issues, and the

family lives in a rented house that costs them Rs. 3,000 per month.

Swara's dream is to become a cricket player, but her poor eyesight was hindering her studies and making it difficult for her to read and write. She had her eyes tested before and was prescribed glasses, but her family could not afford to buy her a new pair.

The Ratnanidhi Trust's Vision for All project stepped in to help Swara. With their high-quality auto-refractometers and optometrists, they checked her vision numbers and provided her with world-class EssilorLuxottica spectacles, free of charge. Swara was thrilled with her new glasses and couldn't believe how clearly she could see now.

The spectacles have made a significant impact on Swara's studies. She can now read and write accurately and take notes with ease. Her grades have improved significantly, and she is now more motivated than ever to pursue her dream of becoming a cricket player.

Swara's mother is delighted that her daughter can now read and study better, which will help her achieve her aspirations. The Ratnanidhi Trust's Vision for All project has been a blessing for Swara and her family, as they could not have afforded such high-quality glasses on their own.

In conclusion, the Ratnanidhi Trust's Vision for All project has provided Swara with the spectacles she needed to succeed in her studies and pursue her passion for sports. Swara's dream is now within reach, and her mother is thrilled to see her daughter doing better in her academics. The spectacles have also helped the family save on the cost of spending money on expensive glasses, which they could not afford. The Ratnanidhi Trust's Vision for All project has made a significant impact on Swara's life, and she is now on the path to a brighter future.

**Nandini Lahu Sonavane** is an 11-year-old girl studying in 5th standard at Swami Shamanand Shala in Ghatkopar's Homeguard area. She is the youngest of two siblings, and her father works in housekeeping and earns Rs. 13,000 per month. They live in a rented house that costs them Rs. 3,500 per month. Nandini's dream is to become a player, but her poor eyesight was hindering her studies and making it difficult for her to read and write.

Nandini had her eyes tested before and was prescribed glasses, but her family could not afford to buy her a new pair. Due to her poor eyesight, she was struggling in her studies and was falling behind in her classes. Her parents were unable to provide her with the spectacles she needed to succeed in her academics.

That's when the Ratnanidhi Trust's Vision for All project stepped in to help Nandini. With their high-quality auto-refractometers and optometrists, they checked her vision numbers and provided her with world-class EssilorLuxottica spectacles, free of charge. Nandini was thrilled with her new glasses and couldn't believe how clearly she could see now.

The spectacles have made a significant impact on Nandini's studies. She can now read and write accurately and take notes with ease. Her grades have improved significantly, and she is now more motivated than ever to pursue her dream of becoming a player.

Nandini's parents are delighted that their daughter can now read and study better, which will help her achieve her aspirations. The Ratnanidhi Trust's Vision for All project has been a blessing for Nandini and her family, as they could not have afforded such high-quality glasses on their own.

In conclusion, the Ratnanidhi Trust's Vision for All project has provided Nandini with the spectacles she needed to succeed in her studies and pursue her passion for sports. Nandini's dream is now within reach, and her parents are thrilled to see their daughter doing better in her academics. The spectacles have also helped the family save on the cost of spending money on expensive glasses, which they could not afford.

**Aryan Sopan Nikam** is a 14-year-old boy studying in 9th standard at Swami Shamanand Vidyalaya in Ghatkopar East's Ramabai Nagar. He is the eldest of two siblings, and his father earns approximately Rs. 8,000 per month. They live with relatives, and his parents give Rs. 2,000 per month to his uncle as rent. Aryan's dream is to learn about astro-physics, but his poor eyesight was hindering his studies.

Aryan had his eyes tested before and was prescribed glasses, but his family could not afford to buy him a new pair. Due to his poor eyesight, he was struggling to read and write, which made it difficult for him to keep up with his studies. His parents were unable to provide him with the spectacles he needed to succeed in his academics.

That's when the Ratnanidhi Trust's Vision for All project stepped in to help Aryan. With their high-quality auto-refractometers and optometrists, they checked his vision numbers and provided him with world-class EssilorLuxottica spectacles, free of charge. Aryan was overjoyed with his new glasses and couldn't believe how clearly he could see now.

The spectacles have made a significant impact on Aryan's studies. He can now read and write accurately and take notes with ease. His grades have improved significantly, and he is now more motivated than ever to achieve his dream of learning about astro-physics.

Aryan's parents are delighted that their son can now read and study better, which will help him score well in his upcoming 10th standard exams. The Ratnanidhi Trust's Vision for All project has been a blessing for Aryan and his family, as they could not have afforded such high-quality glasses on their own.

In conclusion, the Ratnanidhi Trust's Vision for All project has provided Aryan with the spectacles he needed to succeed in his studies and pursue his passion for learning about astro-physics. Aryan's dream is now within reach, and his parents are thrilled to see their son doing better in his academics. The spectacles have also helped the family save on the cost of spending money on expensive glasses, which they could not afford.

**Pranjal Sameer Pawar** is a 12-year-old girl studying in 6th standard at Swami Shamanand High School in Ghatkopar's Bhattwadi. She is the eldest of three siblings, and her father is a clerk earning approximately Rs. 12,000 per month, while her mother makes chapatis at a house for a salary of Rs. 2,000 per month. They live in a rented house that costs them Rs. 4,000 per month. Pranjal's dream is to become an astronaut, and she is determined to work hard to achieve her goal.

However, Pranjal was facing a significant challenge in her studies due to her poor eyesight. She had never had her eyes tested before and was struggling to read from the blackboard and take notes accurately. Her parents couldn't afford to get her a pair of glasses, which meant she was falling behind in her studies.

That was when the Ratnanidhi Trust's Vision for All project stepped in to help Pranjal. With their high-quality auto-refractometers and optometrists, they checked her vision numbers and provided her with world-class EssilorLuxottica spectacles, free of charge. Pranjal was thrilled with her new glasses, and her parents were delighted that their child could now read and study correctly.

Pranjal's new spectacles have made a tremendous difference in her academic performance. She can now see the blackboard clearly, read accurately, and take notes with ease. Her grades have improved significantly, and she is now more motivated than ever to achieve her dream of becoming an astronaut.

Pranjal's parents are happy that their child can now study better and have a brighter future. The spectacles have also helped the family save on the cost of spending money on expensive glasses, which they couldn't afford.

In conclusion, the Ratnanidhi Trust's Vision for All project has made a significant impact on Pranjal's life by providing her with the spectacles she needed to succeed in her studies. Pranjal's dream of becoming an astronaut is now within reach, and her parents can rest assured that their child has a brighter future ahead of her.

**Mohd Zaid Mohd Ayub Ansari** is a 14-year-old boy studying in 8th standard at Ideal High School in Trombay's Cheetah Camp. He is the youngest of five siblings, and his father is a hawker selling coconuts in the market and earning Rs. 12,000 per month. His mother is a homemaker. They live in a rented house that costs them Rs. 7,500 per month. Zaid has abnormal body structure and is differently-abled, dyslexic, and handicapped. He also has thin, small, and cross legs, which prevent him from playing football, which he loves.

Zaid had his eyes tested by another NGO in the past and was prescribed glasses, but the family could not afford to buy new ones after they broke. Due to his dyslexia and other challenges, Zaid was struggling in his studies, and his poor eyesight made it even more difficult for him to read and write.

That's when the Ratnanidhi Trust's Vision for All project came to his aid. Their team of optometrists checked his vision numbers with high-quality auto-refractometers and provided him with world-class EssilorLuxottica spectacles, free of charge. The spectacles were specially designed to help him with his unique visual needs.

Zaid was thrilled with his new glasses and couldn't believe how clearly he could see now. The glasses have made a significant impact on his physical activities as well. He can now play sports without the discomfort of straining his eyes.

The glasses have also helped Zaid in his studies. He can now read and write accurately, and his grades have improved significantly. His parents are overjoyed to see their son doing better in his studies and physical activities.

In conclusion, the Ratnanidhi Trust's Vision for All project has provided Zaid with the spectacles he needed to overcome his visual challenges and pursue his passions. Zaid's dream of playing football may still be out of reach, but his new glasses have made his physical activities more comfortable and accessible.

**Mehjabeen Sailani Shaikh**, a bright and determined 15-year-old girl, lives with her family in a small rented house in Shivaji Nagar, plot no 20 Govandi. She is currently studying in 9 at Anjuman Riyaz-ul Islam Urdu High School. As the eldest of three sisters, Mehjabeen has always taken her role as a big sister and student seriously, working diligently to set a good example for her younger siblings.

In her family, only her father works as a salesman for Nero Chips, earning a meager income of INR 10,000 per month. With her mother being a homemaker and the family living in a rented house costing INR 5,500 per month, they often struggle to make ends meet.

Mehjabeen's ability to focus on her studies was severely hindered by her poor vision. She had her eyes tested and was prescribed spectacles, but due to financial constraints, her family could not afford to buy them. This issue negatively impacted her academic performance, making it difficult for her to see the blackboard, read textbooks, and fully engage in her education. Fortunately, Ratnanidhi Trust's Vision for All project came to Mehjabeen's aid. They conducted an eye examination using high-quality auto refractometers and optometrists and provided her with world-class EssilorLuxottica spectacles.

She is now able to read the blackboard and her textbooks with ease, Mehjabeen's academic performance has improved significantly. This newfound clarity has not only boosted her confidence but has also strengthened her resolve to work hard and build a bright future for herself and her family. Her parents, relieved and overjoyed, are grateful to Ratnanidhi Trust and the Vision for All project for providing their daughter with the essential tool she needed to succeed in her education.

Mehjabeen's story is a testament to the power of clear vision and the vital role it plays in a child's education. With her new spectacles, she is better equipped to unlock her full potential and make her dreams a reality.

**Falak Fatima Abdul Shaikh** - Once upon a time in the humble abode of Lakshmi chawl, there lived a little girl named **Falak Fatima Abdul Shaikh**. With big dreams in her eyes and an unwavering spirit, she aspired to be an IAS officer, defying all odds and limitations of her family's financial condition.

Despite the challenges, Falak never lost hope and continued to work hard towards her goals.

But her dreams were hindered by her poor eyesight, which made it difficult for her to see the blackboard clearly in class. Her parents couldn't afford to get her glasses, and it seemed like her aspirations would remain out of reach.

But fate had something else in store for Falak. A ray of hope shone through the darkness in the form of the Ratnanidhi Vision for All Programme. Through this program, she was provided with world-class high-quality custom manufactured EssilorLuxottica spectacles that would help her see clearly and excel in her studies.

As she put on her new spectacles for the first time, Falak's world transformed. The once-blurry blackboard became clear as day, and her confidence soared. She could now study with ease and score better than ever before. With her vision restored, nothing could stop her from achieving her dreams.

Falak's parents were overjoyed to see their little girl with a bright future ahead of her. The Ratnandhi Vision for All Programme had not only given her spectacles but also a chance at a better life.

And as Falak continued to work hard towards her goals, she knew that the world was hers for the taking. With her determination, unwavering spirit, and the gift of clear vision, she was unstoppable.

Thus, Falak Fatima Abdul Shaikh's story teaches us that with hope, hard work, and a little help from the right sources, one can overcome any obstacle and achieve their dreams.

**Mayuresh Pawaskar**, a 13-year-old boy from Mankhurd West, was struggling to see the blackboard clearly in school. He had been prescribed spectacles during an eye check-up earlier, but his family couldn't afford to buy them due to financial constraints. Despite his parents' efforts to manage the household expenses on a single income, they found it difficult to make ends meet. Mayuresh's father worked as a housekeeper and earned approximately Rs. 10,500 per month, which barely covered the family's basic necessities.

Mayuresh's family lived in a rented house that cost them Rs. 4,500 per month. He had two siblings, one in college and another in school, who were also dependent on his father's income.

Mayuresh dreamed of becoming a sports player, but his poor eyesight was becoming a hindrance to his academic performance. His parents believed that spectacles could help him study well and score good grades. However, the cost of good quality spectacles was beyond their means.

Fortunately, Ratnanidhi Trust's Vision for All project came to their rescue. The project provided high-quality machines and optometrists to check Mayuresh's vision numbers. After determining his vision needs, the trust provided Mayuresh with world-class EssilorLuxottica spectacles that met his prescription requirements.

The spectacles made a significant difference in Mayuresh's life. He could now see the blackboard clearly in school and concentrate better on his studies. With improved academic performance, he was closer to realizing his dream of becoming a sports player.

Mayuresh and his family were grateful to Ratnanidhi Trust's Vision for All project for their support. The trust's intervention not only helped Mayuresh's academic performance but also boosted his confidence and motivation to pursue his dreams. Mayuresh's parents were relieved that they no longer had to worry

about the cost of spectacles and could focus on providing a better future for their children.

**Rabiya Basir Mohd Umar Sayyed** was a 14-year-old girl residing in the slums of Shivaji Nagar, Govandi, Mumbai. She was the eldest among her 5 siblings and lived in a small rented house with her family of 8 members. Her father was a street hawker who sold nightgowns in the local market and earned a meager salary of Rs. 12000/- per month. Her mother was a homemaker, and they struggled to make ends meet with their limited income.

Rabiya was a bright student and aspired to become a religious teacher one day. However, her vision was impaired, and she faced difficulties in seeing the blackboard during her classes. Unfortunately, her family could not afford to get her eyes tested or buy her spectacles due to their financial constraints. This resulted in her struggling to study and falling behind in her classes.

However, things changed for Rabiya when Ratnanidhi Trust with Vision for All Project came to her school. The trust had high-quality machines and optometrists who conducted a thorough eye check-up for all the students. Rabiya's vision was tested, and it was discovered that she needed spectacles to see properly. Ratnanidhi Trust did not just provide any spectacles, but they gave her world-class custom-made EssilorLuxottica spectacles that fit her perfectly.

Rabiya was overjoyed to receive the spectacles, and she could not believe how clear and vivid everything appeared. With the help of her new spectacles, she could now see the blackboard clearly and study without any difficulty.

The spectacles not only improved Rabiya's vision, but they also brought a ray of hope to her family. The family was glad that they did not have to spend their hard-earned money on the spectacles, and it would help Rabiya achieve her dream of becoming a religious teacher.

Rabiya's story is a testament to the impact of Ratnanidhi Trust with Vision for All Project, which helped students like her who could not afford quality spectacles.

**Ayesha Siddiqui Junaid Hussain**, a 12-year-old girl living in Malwani West, Mumbai, has a dream of becoming a painter. But her journey towards achieving her dream was obstructed by her poor eyesight.

Ayesha's father is a wardrobe maker, earning a meager salary of around Rs. 12,000 per month. Her mother is a homemaker, and the family lives in a small rented house, which costs them Rs. 6,000 per month. Ayesha is the eldest of her two siblings, and they all attend an aided school in the area.

Ayesha had undergone an eye test earlier and was prescribed glasses, but she stopped wearing them when her headache subsided. Her family could not afford to buy her new glasses when she needed them, which resulted in her vision getting worse.

But Ayesha's luck changed when Ratnanidhi Trust with Vision for All project came to her school. With the help of the spectacles, Ayesha's academic performance improved significantly, and she can now read easily without any difficulty. The spectacles also helped her pursue her dream of becoming a painter as she could now see clearly and draw with more accuracy.

The Ratnanidhi Trust with Vision for All project not only helped Ayesha achieve her academic and career aspirations but also helped her family save on the cost of spending money on the spectacles. Ayesha's family is grateful for the support and assistance provided by the project, which has made a positive impact on their lives.

## Testimonials

महोदय,

आपली संस्था शिक्षण, आरोग्य, भूक, उपजिविका आणि आपत्ती निवारण अशा विविध कार्यात सतत २५ वर्षे कार्य करत आहे. आपल्या रत्न निधी चॅरिटेबल ट्रस्टच्या माध्यमातून आमच्या शाळेतील १८० विद्यार्थ्यांना चण्याचे धाटप करण्यात आले. आपल्या संस्थेचे आमच्या कर्मवीर भाऊराव पाटील विद्यालयातील शिक्षक, पालक, विद्यार्थी व संस्थेकडून जाहीर आभार. यापुढेही आपले सहकार्य आम्हाला मिळावे. ही नम्र विनंती. कळावे.

आपली विश्वासू

महोदय,

आपल्या संस्थेमार्फत दि. ३ जानेवारी २०२३ रोजी इ. १ली ते १० वी च्या विद्यार्थ्यांचो होळो तपासणी करण्यात आली. त्यातील चार विद्यार्थ्यांना चष्मे लागले ते देखील विनामूल्य आपल्याकडून देण्यात आले. आपल्या या उपक्रमासाठी आपण आमच्या शाळेची निवड केलीत त्याबद्दल धन्यवाद. आपण केलेल्या विनामूल्य तपासणीसाठी तसेच मोफत चष्मे वाटप यासाठी शाळेचे विश्वस्त, शिक्षक-शिक्षकेतर कर्मचारी व विद्यार्थ्यांच्या वतीने मी आपले आभार मानते.

धन्यवाद !

आपली विश्वासू

I wanted to express my sincere gratitude for your recent eye checkup and free distribution of spectacles to the students of Map Khan High School. Your kindness and generosity have truly made a difference in the lives of these students.

It was heartwarming to see the dedication and care your team exhibited throughout the eye checkup. Your professionalism and attention to detail ensured that each student received the appropriate eye care they needed. And for those who required spe, your free distribution of them is truly commendable.

I am personally grateful for the positive impact you have had on the students' academic performance and overall wellbeing. Your initiative will not only improve their vision but also boost their self-confidence and encourage them to pursue their dreams.

Once again, thank you for your generosity, and I hope to see more such noble initiatives from your organization in the future.

Sincerely,

महोदय,

आपल्या संस्थेचे प्रोजेक्ट "व्हिजन फोर ऑल" यामार्फत, आपण आमच्या शाळेतील ३०० विद्यार्थ्यांची नेत्र तपासणी केली. ज्या विद्यार्थ्यांना पुढील तपासणीची आवश्यकता आहे त्यांना हॉस्पिटलचा पत्ता देऊन मार्गदर्शन केले. आपल्या संस्थेतर्फे शाळेतील ३ विद्यार्थ्यांना चष्मा देण्यात आला.

आपण शाळेत नेत्र तपासणी करून शाळेस व विद्यार्थ्यांना जे सहकार्य केले, त्याबद्दल आपल्या संस्थेचे आभार! असेच सहकार्य आपणाकडून भविष्यात मिळो हि सदिच्छा !
